Mobile Application Developer(Java-Android/Dart-Flutter)||3* at CC(1752)

EXPERIENCE

EmpowerU, Kanpur— *Android Developer intern*

Sep 2020 - PRESENT

~ I have added basic features to the EmpowerU application.

~ Used third-party open-Source library LightCompressor by AbedElazizShe to compress videos and upload them to the drive.

~ Used third-party library Mpandroidchart to make analytics part of the android app more engaging.

~ Parsed API data from JSON format to use in different applications.

~ Added basics component in the prototype app.

~ Designed UI for different mobile applications.

EDUCATION

Academy Of Technology, Hooghly — B.tech/BE

2018 - 2019

I am pursuing my undergraduate degree in Computer Science and Engineering. My current GPA is 8.2.

Sister Nivedita Institute, Howrah — Higher Secondary

2016 - 2018

I have scored 82% in ISC with mathematics and Computer Science as my compulsory subjects.

PROJECTS

COVID Updates (Android App)

May 2020 – Jul 2020

Here I have used Rest API to get the latest news article related to COVID-19 and also to get world data on COVID cases. I have used the Firebase authentication system to sign in and sign up. And to gather data from the user I have used the google Realtime database system.
